

Firestone

Those with drive, drive a Firestone.

Introducing the new Firestone FS561 Tire

FS561™

- Specially designed for steer applications
- Navigates demanding conditions
- All-position radial
- Features solid shoulder construction

Firestone

FS561

A »

- **Special Groove Shape**
 - Increases resistance to rib tearing

B »

- **Stone Rejectors**
 - Located in center grooves to enhance resistance to stone drilling and protect belts

C »

- **Rib Sipes**
 - Cut through water for solid wet traction

D »

- **Stress Relief Sipes**
 - Fight irregular wear by absorbing rib edge stresses in the footprint for long, even wear

Advantages

Wide and deep tread

- Increases original tread life
- Wide footprint spreads the load over a larger area distributing footprint pressure to promote long, even wear

Sidewall Protector Ribs

- Help protect the casing from cuts, snags and abrasions due to curbing and impacts

Innovative Sidewall Design

- Reduces overall weight to improve fuel efficiency without sacrificing durability

Iconic

- Firestone: An iconic brand that has kept American trucks rolling
- Firestone and trucking have been united in the business of moving products and services
- FS561 reflects a continuing commitment of durable and rugged tires
- FS561 is made to last for the long run
